More About NHMA's Member Portal

After Each Election, Update Your Information with NHMA by May 31st!

After each election, we remind members to update their municipal roster. Since town meeting means reelections and new elections, we ask that you take a moment to update your information for our *New Hampshire Municipal Officials Directory*.

Updating this information each year helps NHMA make sure it can effectively communicate and engage with municipal officials from across the state on legislative activity and opportunities for workshops, webinars, conferences, and other educational and training events.

Deadline is May 31st. As always, we thank you for your help in making the *Directory* as complete and up to date as possible.

Update Wage & Salary Survey by May 31st

Every year, NHMA asks our members to update their member compensation information for the online wage survey. The information members provide allows for an annual report of the wages and salaries paid to New Hampshire municipal employees and elected officials.

NHMA makes the survey data available to members through its website: www.nhmunicipal.org. Municipal members can use this online tool to make sure that their compensation scale is competitive with other municipalities with comparable populations and budgets.

Responding to the wage survey is voluntary, but NHMA encourages all members to complete this survey every year, since widespread participation makes the data more useful.

The 2023 wage survey will be available for data entry until **May 31st!**
