Who is digging in your town?

DIG SAFE MEMBERS KNOW.

Demonstrate your commitment to the safety of your community by protecting your underground utilities from excavation accidents. Dig Safe is a streamlined communication process that notifies you of projects that could potentially damage sewer, water, drainage, fire alarm and traffic control facilities.

- Municipalities with under 100 miles of underground facilities (or street miles) pay only \$1.00 per notification. Contact Dig Safe for an estimate.
- Dig Safe's detailed education program includes on-site safety seminars for excavators to learn damage prevention strategies and the requirements of the "Dig Safe" law.
- Reduce notices with Dig Safe's digital mapping system.
- Dig Safe meets or exceeds all of Common Ground Alliance's Best Practice recommendations for the nation's one-call centers.
- No expensive equipment needed - only an email address is required to receive Dig Safe tickets.
- Dig Safe's extensive advertising campaign raises awareness to call 811 before digging.
- Electronic and voice-recorded data stored for your legal protection.
- 24/7 notification process.

Call  or visit digsafe.com to learn more about becoming a member.

ABOUT THE DIRECTORY

The New Hampshire Municipal Association (NHMA) publishes the **New Hampshire Municipal Officials Directory** each year as a resource for cities, towns, schools and other local governments. The 2022-2023 **Directory** is updated to provide a current listing of municipal officials in each of the 13 cities and 221 towns throughout the state. Entries include the name, position title, mailing address, telephone number and email for local officials, along with the office hours, website and other general information for each city and town.

The **Directory** also contains listings for each of the 10 counties and nine regional planning commissions, population figures provided by the state Office of Strategic Initiatives, and equalized value figures and property tax data supplied by the state Department of Revenue Administration.

This Directory is interactive and allows users simply to click an email address to send an email (available with compatible email programs, such as Outlook). Users may also click on websites to launch them, including websites within advertisements.

The success of this publication depends upon the information provided by city and town administrative assistants, clerks, and other local officials to NHMA each April and May. The assistance of these many individuals is greatly appreciated. While every effort is made to ensure accuracy, it is important to note that some information unfortunately may have changed after publication.

Additional Copies

NHMA Members: \$45.00

Non-members: \$90.00

To order, visit www.nhmunicipal.org

Each NHMA member municipality receives a complimentary copy of the Directory as a benefit of membership.

ADVERTISING

This publication is made possible through the support of advertisers. Advertising in the Directory is available to organizations offering products and services to local governments. All advertisers receive a searchable pdf copy of the publication. For advertising information, call 603.224.7447, ext. 1305.

ERRORS & OMISSIONS

While every effort is made to ensure accuracy, it is important to note that some information unfortunately may have changed after publication. Updates may be entered on our website. For help contact us at publications@nhmunicipal.org

NATIONAL LEAGUE OF CITIES

The National League of Cities (NLC) is the oldest and largest national organization representing municipal governments throughout the United States. Its mission is to strengthen and promote municipalities as centers of opportunity, leadership and governance. The NLC serves as a national resource to and an advocate for the more than 16,000 cities, villages and towns it represents. The NLC was founded in December 1924 by 10 state municipal leagues that saw the need for a national organization to strengthen local government through research, information sharing and advocacy on behalf of hometown America. Today, the unique partnership among the NLC, the 49 state municipal leagues, and the elected leaders of the 1,600 member cities and 16,000 state league cities provides a powerful network for information sharing and for speaking on behalf of America's cities in Washington, D.C. and all state capitols. All municipalities, regardless of size, are eligible to become members if they are also members of their NLC-affiliated state municipal league. Dues are scaled according to population. For membership information, please call 202.626.3190 or visit www.nlc.org.

When you save, NHSAVES®

When our municipalities and businesses save energy, we benefit from a healthier, more sustainable environment. If you are building a new facility, undergoing a major renovation or replacing equipment, the NHSaves utility partners provide the information and financial incentives you need to successfully complete your municipal, small business or large business energy efficiency upgrades.

NHMBB New Hampshire Municipal Bond Bank

To achieve the best results on your bond issue, call the professionals at the Bond Bank. We are a non-profit agency devoted full-time to financing public improvements. Since 1977, we have made 1,390 separate long-term loans totaling over \$3.2 billion at low, tax-exempt interest rates to over 338 New Hampshire cities, towns, counties, school districts, and fire/water/sewer/village districts. Here are some reasons why the vast majority of New Hampshire communities turn to us for their borrowing needs:

- Competitive interest rates created by the Bond Bank's highly rated bond issues, national bond market recognition and ease of access. The NH Municipal Bond Bank is rated Aa2 by Moody's Investors Service and AA+ by S&P Global.
- No Bond Bank fees. The only out of pocket expense municipalities have to pay is to local bond counsel.
- Streamlined borrowing process that allows local governments to obtain funds without the expense or considerable burden of arranging their own financing.
- Participating communities do not have to prepare or print their own official statement or obtain their own bond ratings or bond insurance.
- Bonds are issued with fixed interest rates and borrowers are protected against having their interest rates increase due to a changing market.

Visit our website for more information. If you would like to schedule an appointment in your community or at our office, please contact Tammy J. St. Gelais, Executive Director at:

***Why Doesn't Every Community Have the Same State Property Tax Rate?

Pursuant to RSA 76:3, the state property tax rate is set each year "at a level sufficient to generate revenue of \$363 million." The state calculated that rate at \$1.825 per \$1,000 of property valuation for the 2021 property tax year, which is the year of the property tax information reported in this Directory. As you see in the chart, very few communities had an actual \$1.825 tax rate. That is due to a number of factors. The Department of Revenue Administration uses total equalized value to determine what each municipality must raise to cover the cost of an adequate education. That takes into account differences in local option exemptions and differing assessment ratios. Different communities have different elderly exemptions, for example, and communities vary on how close their assessed values are to 100 percent of market value. Those items affect the local rate of the state property tax each year.

Mascoma Bank

COMMUNITY FIRST
SINCE 1899

We are Specialists in Municipal Banking

Decades of working hand-in-hand with counties, towns, and cities have helped us understand what municipal employees, elected officials, and volunteers need most from a banking partner.

As a 123-year-old mutual bank and a Certified B Corporation®, we strive to use business as a force for good.

We invite you to discover the difference banking with us can make.

NRRRA is a nonprofit organization that enables both small rural and large urban communities to manage their own recycling programs. NRRRA is one of only a handful of nonprofits in the country that operates a recyclables marketing cooperative, which means that we directly connect sellers of recyclable commodities to purchasers of those commodities.
