

Primex³ Legal And Human Resources Bulletin

Important Links to Resources that Employers Should Regularly Check

While the coronavirus pandemic and its impact on the workplace continues to unfold, federal agencies such as the U.S. Department of Labor (USDOL), the Equal Employment Opportunity Commission (EEOC), and the Centers for Disease Control and Prevention (CDC) are regularly updating their respective guidance and technical assistance publications. Also, the New Hampshire Governor's Office and various state agencies continue to update guidance materials and make announcements that are relevant to employers. These resources address important topics such as employee leave, the interplay between COVID-19 and federal EEO laws, symptoms associated with COVID-19, employee rights and entitlements, and workplace safety considerations.

Given the rapid development of these guidance materials and an employer's responsibility to comply with the most up-to-date requirements and recommendations, Primex³ suggests Members regularly check the following links:
